**CARGO-DRY®**  
—Yellow Absorber

**Moisture Damage**

For many years, thousands of containerized cargoes are damaged by moisture problems. When the containers arrive at the destination, metal is found to be rusty or oxidated, cartons become soft and moldy, bulk coffee, cocoa, beans may be damp, musty..., such losses sometimes costs several million dollars. It is caused by two main reasons: **Container Rain** and **Cargo Sweat**.

**TOP-SORB's Solutions:**

**Cargo-Insert®**, slim long bag with hook, 2500g, can be inserted inside the waves of container wall, mainly for cargo with very tight loading conditions, which is very important to save space. Its adsorption Capacity reaches 80%, keep adsorption for more than 60 days.

**Cargo-Insert®**

**Inserted into the waves on container  
wall**
