CARGO-FORCE® —TiltWatch

Tilt indicator can clearly show whether the goods had been tilted, traversed or inverted in transit or storage.

It also monitors whether the goods were stored properly. Simple, cost-efficient, and highly effective, these attention-getting devices provide visual deterrents to unacceptable handling, no matter what you're shipping.

Product selection

There are two tilt indicators in option, **TiltWatch** or **TiltWatch Plus**, with different requirement of tilt angle indication.

TiltWatch

TiltWatch is a 100% reliable and trustworthy product when you need to detect and record unacceptable tilting on goods that must remain upright. This tilt sensor turns red if the container it is affixed to tips on its side or is completely upended. TiltWatch will not activate under normal handling conditions or during aircraft take-offs.
