

**CARGO-LIFT**  
—Hydraulic Hand Pump

**TRB0.6L**

**TRB1L**

**Hydraulic Hand Pump** is a small hydraulic pump station for transferring hand mechanical energy into hydraulic energy. Using with oil cylinder and professional tools, it can support different operations such as lifting, bending, straightening, cutting, riveting, installation, disassembly, building construction etc, especially suitable for open-air operations such as electricity shortage construction, electric power, vehicle maintenance, etc.

**Product Features**

\* Features: high pressure, manual, mini type, easy carry, simple operation, wide use. It can be used as power supply of all types hydraulic equipments and high/middle/low hydraulic tests.

\*Workable with ultra-thin hydraulic jack, please see the fitted specification in following sheet.

**Usable with ultra-thin Hydraulic Jack**

**Specification**

| Model   | Oil Volume (L) | Interface Size | Max. Pressure (Mpa) | Fitted Hydraulic Jack model          | Net weight (kg) | High Oil Pressure (L/mm) | Low oil pressure (L/mm) |
|---------|----------------|----------------|---------------------|--------------------------------------|-----------------|--------------------------|-------------------------|
