CARGO-MOVE

— Fork Mounted Drum Grab

DG40

Fork Mounted Drum Grab is always used with forklift and makes the handling and stacking of drums a very easy job. It holds and lifts the drum automatically, then releases it automatically at the location you want. It is heavy duty steel constructed.

Product Features

- *Heavy duty design, simple and practical operation, being used with forklift only.
 - *Insert the forks into the pockets of drum grab and screws it tightly.
 - *No need suspend the driving position when lift, carry and stack drums
 - *Pressure is automatically acquired with the action of grabbing the drum.
- The drum is firmly hold in the same position until deposited.
After the drum's dropping, the pressure is automatically released
