

## CARGO-MOVE

### — High Lift Pallet Truck

**High Lift Pallet Truck** can be used as hand pallet truck and also lifting platform. With a uniquely design hydraulic valve, it can automatically control the speed. No matter with load or without load, it performs in a stable slowdown rate. It's your ideal choice for cargo carrying.

#### Product Features

- \*Ergonomic handle design makes the operator easier and more comfortable to use. Please use open pallets for labor-saving when carrying goods.
- \* 3 section piston rods design, make the oil plug easily lift the goods to a high position.
- \* During heavy loading, the fork slowdown the speed automatically to reduce the damage.
- \*2 horizontal stabilizers ensure the stability of the goods after lifting.
- \* When the load is below 150kg, the quick-lift pump will improve the speed doubly.
- \* The automatic speed control device can prevent cargo damage caused by fast drop
- \* When the forks get down to the height 420mm, the front support legs and adjustable stabilizers will extend to the floor automatically, to ensure maximum stability and optimum braking.
- \*4mm thick steel plate fork frame and larger lift piston ensure the truck to reach rated capacity.
- \*The support legs operate with fork system. When lifting the cargo, the legs stop moving automatically.

**USE WITH  
OPEN PALLETS**
