—Metal Container

RBA4030

RBB4030

Metal Container is made of high-quality cold-rolled steel. With its unique design and metal welding structure, it has greater load capacity and a longer lifetime than plastic containers. The use of galvanized steel sheet makes its surface abrasion resistant, remaining nice appearance for a long time. It is strong and durable, stackable and space saving.

Product Features

*Baking varnish, spray plastics, electroplating surface treatments are optional, applying to use in different occasions. *Suitable for turnover of all types of products;

*High-strength handle design, easy to carry and turnover;

*Strong and durable, exquisite appearance, stackable, space-saving;

*Customized colors available, customers logo can be impressed on container sides

*The metal marking area for marking and recording material name or other carrying parameters.

Specification
