

CARGO-SORT® —Mobile Scaffolds

Mobile Scaffolds are classified as heavy-duty series, medium-duty series, and light-duty series to meet different customer's needs. Heavy-duty series adopt cold pressing technology, medium-duty and light-duty series adopt pressing& welding combined technology. They are widely used in the maintenance and cleaning in hotels, industrial plants, building constructions, theater venues, schools, hospitals, gardens, decoration etc.

Single-width JSI/JSII Series

Vertical climbing in scaffold, easy to pass through narrow door and passage, used to do some complex maintenance.

Double-width JX Series

Each Floor is equipped with inclined ladder, safe to climb with tools and equipments.

Standard series

Large platform, can climb from inclined ladder or frame side.
