

CARGO-SORT

— Nestable Pallet

Nestable Pallet is made from 100% high anti-impact strength materials polyethylene (HDPE) and polypropylene (PP) through injection molding. It's widely used for the sorting, storing and handling of clothing, hardware, machinery, electronics, chemical products, helping improve the operation efficiency of workshop and warehouse.

Product Feature

* Light, smooth, nice appearance, anti-slip, rot and low temperature resistance, anti-impact, non-oxidizing.

*Recyclable, good integrity, no nail and thorns, tasteless, odorless, no static spark, easy cleaning.

*Raw material is with anti-aging agent added, long use life, hard texture

*High chemical stability, Acid & Alkali resistance, organic solvent resistance.

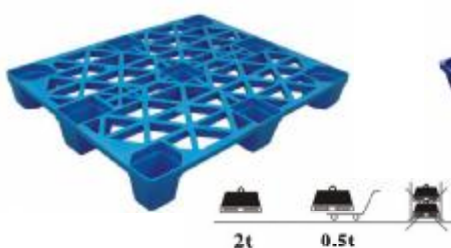

*Excellent electrical property and anti-radiation, anti-heat property

* Load capacity is over 1000kg, adopt anti-impact technology
