CARGO-SORT® —Roll Pallet

Roll Pallet is made of high-quality steel with treatment of electrostatic powder coating, being installed high quality casters. It is an efficient carrying tool for logistics and manufacturing industries.

Product Feature

- * Attaching safety strap & fixed pole, fast loading & unloading, facilitate mechanized movement and short-distance labor carrying.
- * Working with handling equipment such as turnover containers, helps to achieve unitization management and make most use of the space.
- * Large storage space, flexible application, foldable to save space.
- * Nameplate attached for visualizations of process operation
- * Easy carrying, labor-saving, simple operation, long use life.

Application

It is widely used in logistics and manufacturing industries for various purpose including the inter-process transportation, small objects handling, storage, display and so on.

Foldable, saving space.
