CARGO-SORT® —Stackable Container

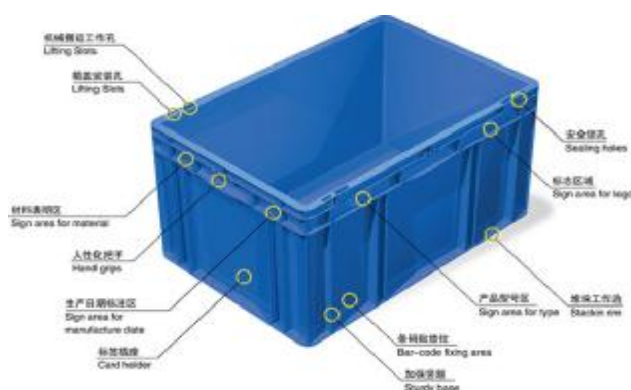

Stackable Container is made of PP material, easy to handle and manage, neatly stacked. It is normally matched with planar cover. The metal hinges, handles and other accessories are optional.

It is widely used in automotive, medicine, tobacco, household appliances, commercial logistics, distribution and storage areas etc.

Product features

- *Reserved capping groove ensures smoothness and integrity.
- *One-time lock device prevents the material from being stolen or scattered during handling and distribution.
- *Reserved groove for packing tape, humanistic design, increases the cargo security.
- *Plane sides, convenient for silk screen print, easy to clean and attach card pocket for management.
- *Container covers and sides have dermatoglyph-structured districts for tear & paste labels and computer bar code.

- *Flat bottom design, suitable for being used on roller transmission lines and other distribution system. There are reinforcing bottom and double-reinforcing of greater load capacity for optional.
- *Four corners are double-reinforcing arc structured, improves the overall strength.
- *Ergonomically designed handle, easy to carry;
- *Anchor point of short side bottom groove and tank cover, improves the safety of stacking.
